

# SPECIFICATION

(35 U.S.C. – 112)

Name : A.. SUBBIAH

Confirmation No. 9213

The main claim — No 1

This main idea of the high speed-revolving disc leaving the ground and taking off is the main claim and this idea is to be patented.

**SPECIFICATION**  
(35 U.S.C. – 112)

Name : A. SUBBIAH

Confirmation No. 9213.

CLAIM NO. 2

Claim No.1 can be also achieved by simulating the escape of the gas / air by a micro processor controlled valve. In this case only gas / air will be ejected through the nozzles in a circular fashion controlled by the valve. In this case the disc will leave the ground and take off without any rotary motion.
